

**SPIRITS OF ST. LOUIS R/C FLYING CLUB, INC. --- INSTRUCTOR ROSTER**

Congratulations and welcome to the “Spirits” R/C Club. We know that you have already invested a lot of time and money just getting started. It is our goal to ensure that your interest and devotion is rewarded by hundreds of safe and successful flights.

The list below contains the names of Spirit members who have demonstrated their competency in both flying and instructing others to fly. They have volunteered to assist new pilots whenever possible. Each instructor was asked when he might be available to teach in order to accommodate the personal schedules of the instructor and the student. You should familiarize yourself with the schedule below and select the instructor(s) who best suits your need. Note that the times listed below do not mean that instructors are at the field at those times. **You will have to call an instructor to set up an appointment. PLEASE give the instructor as much notice as possible.** If an agreeable time cannot be worked out as soon as you would like it, you may wish to select another instructor. After an appointment is made, give the instructor a little background on yourself (past flying experience, if any) and your airplane. He will need to know the brand of equipment you are using and he may wish to allow additional lesson time if the plane has never been flown.

Never fly a new airplane without having an experienced pilot perform an airworthiness inspection. Even experienced pilots have peers give their planes an inspection to ensure nothing has been overlooked.
